Subject Index

A

- Adriamycin as agent for treatment of breast cancer, 325-326
- Aminopterin as agent for temporary remission of leukemia in children, 297-305
- Anticoagulants in treatment of cancer, 149

B

- Basal cell carcinoma, 220-223
- Biography
 - Baillie, Matthew (1761-1823), 47-48
 - Bennett, Alexander Hughes (1848-1901), 169-170
 - Brunschwig, Alexander (1901-1969), 361-362
 - Farber, Sidney (1903-1973), 294-296
 - Godlee, Rickman J. (1849-1925), 169-170
 - Graham, Evarts A. (1883-1957), 236-237
 - Pott, Sir Percival (1714-1788), 108-109
- Bladder, cancer of
 - mortality rates for, 4
 - relationship of paraplegia and chronic cystitis to, 107
- Bleomycin, 322-324
- Bone tumors
 - clues in assessment and diagnosis of, 196-197
 - radiologic diagnosis of, 194-211
- Bone tumors, benign
 - chondroblastoma (Codman's tumor), 200
 - enchondroma (chondroma), 199-200
 - fibroxanthoma (non-ossifying fibroma, non-osteogenic fibroma, fibrous cortical defect), 202-203
 - giant cell tumor, 201-202
 - hemangiomas, 203
 - osteoblastoma, 201
 - osteochondroma, 198-199
 - osteoid osteoma, 200-201
 - osteoma, 198
- Bone tumors, malignant
 - chondrosarcoma, 207-208
 - Ewing's tumor, 206-207
 - fibrosarcoma, 210-211

- metastases in, 211
- myeloma, 204-205
- osteogenic sarcoma, 208-210
- reticulum cell sarcoma, 205-206
- Brain, cancer of
 - diagnosis and surgery for, 171-181
 - value of scans in detection of, 31
- Breast, cancer of
 - adriamycin as agent for treatment of, 325-326
 - controversy regarding surgery for, 78-82
 - estrogen as agent for treatment of, 307
 - examination for, 290-293
 - hereditary and nonhereditary age distribution at diagnosis of, 133
 - mortality rates in, 3, 17
 - national detection demonstration by American Cancer Society and National Cancer Institute, 82
 - radical mastectomy for, 78
- Bronchus, carcinoma of
 - lung removal for, 238-242
- Burkitt's lymphoma
 - metastatic treatment of, 246

C

- Cancer statistics, 1974—worldwide epidemiology, 2-21
- Carcinogenesis, chemical report on, 351-360
- Cervical nodes, metastatic, 229-232
 - radiation therapy for, 229, 231-232
 - surgery for, 230
- Cervix, cancer of
 - diagnosis of, 243
 - 5-fluorouracil as possible cause of, 151
 - herpes genitalis and, 258-265
 - reducing risk of error in detection of, 22-30
- Chemical carcinogenesis, report on, 351-360
- Chemotherapeutic agents
 - aminopterin, leukemia remissions in children produced by, 297-305
 - adriamycin as agent for treatment of breast cancer, 325-326
 - anticoagulants in treatment of cancer, 149
 - bleomycin as agent for treatment of head and neck cancer, 322, 323
 - estrogen as agent for treatment of breast

cancer, 307
 5-fluorouracil as possible cause of cancer of cervix, 151

Children, cancer in
 hereditary rates for, 132
 management of, 332-335

Children, malignant scrotal masses in, 163-168

Classics in Oncology
 cerebral tumor, surgical treatment of, 171-181
 leukemia in children, temporary remission of, produced by . . . aminopterin, 297-305
 lung, removal of, for carcinoma of the bronchus, 238-242
 morbid anatomy of important parts of the human body, 49-56
 pancreas and duodenum, resection for carcinoma, 363-367
 scrotum, cancer of, chiralurgical observations relative to, 110-116

Close-up
 breast examination, standard, 290-293
 colon and rectum, endoscopic examination of, 160-162
 head and neck examination, systematic, 32-35

Cold-knife conization
 of the cervix in examination for cervical neoplasia, 25-26

Colon, cancer of
 diagnosis, method of, 148

Colon and rectum, cancer of
 clinical signs and symptoms in, 153
 diagnostic guide for, 156
 digital rectal examination for, 100-103
 early diagnosis of, 152-159
 endoscopic examination for, 160-162
 mortality rates for, 2-3, 16

Colposcopy
 in examination for cervical neoplasia, 26-27
 in uterine cervix examination, 143

Cytology
 cervical neoplasia, false-negative results in examination for, 23-24
 surgical specimens, cytologic diagnosis of, 40-41
 uterine cervix examination, importance of first smear in, 143

D

Death and cancer patient (editorial), 256
 Digital rectal examination, 100-103

E

Editorials

breast cancer, women's attitudes regarding—the Gallup poll, 117
 cancer control, costs, benefits and, 64
 cancer nursing—something old, something new, 191-192
 international campaign against cancer, 368
 oncologist and cancer management, 320
 patient's right to die . . . the easy way out?, 256

Editor's interviews
 Blacks, cancer mortality in (Leffall), 42-46
 diagnostic radiology for cancer (Stein), 83-86
 lymphomas—troublesome problems in management (Rundles), 137-140
 pediatric oncology in perspective . . . cure is not enough (D'Angio), 332-335
 spontaneous regression of cancer (Cole), 274-279
 vaccines, human cancer virus (Hilleman), 212-217

Emotional crises and cancer, 36-39
 Erythroleukemia, treatment of, 245-246
 Estrogen as agent for treatment of breast cancer, 307

F

Feedback

breast carcinoma, management of, 78-82
 bronchus, carcinoma of, removal of lung for, 337
 colorectal cancer, diagnosis of, 281
 death and cancer patient, 336
 melanoma, malignant, 233-234
 rectal examination, digital, 280
 scrotal masses, malignant, in children, 281
 seminoma, chemotherapy in treatment of, 338

Wilms' tumor, 233
5-fluorouracil as possible cause of cervical cancer, 151

G

Genetics, role of in human cancer, 130-136
Glands
 cancerous mesenteric, 56
 scrofulous mesenteric, 56
Grape diet, 144-146

H

Head and neck, cancer of
 bleomycin as agent for treatment of, 322, 323
 examination for, 32-35
Herpes genitalis and cervical cancer, 258-265
Highlighting Cancer Chemotherapy Reports,
 57, 125-127, 182-184, 255, 315-317, 369-371
Hodgkin's disease
 bleomycin as agent for treatment of, 322-323

I

International campaign against cancer
 (editorial), 368
Intestines, cancer of
 scirrhous and, 50-51

L

Larynx, hyperkeratosis of, treatment for, 306
Leukemia
 adriamycin as agent for treatment of, 327-328
 mortality rates for, 4, 16
 remission of, in children, 297-305
Liposarcoma, treatment for, 307
Liver
 hydatids of, 54-55
 tubercle of, 51-54

Liver, cancer of
 therapy for, 247
Looking at Cancer, 62-63, 128, 190, 248-249,
 308-311, 375-376
Lung, cancer of
 adriamycin as agent for treatment of, 327
 clinical staging for, 87-94
 diagnosis and treatment for, 96-99
 mortality rates for, 3, 16
 survival rates for, 147
Lung, removal of, in carcinoma of bronchus,
 238-242
Lymphocytes, effect of, on cancer cells
 following surgery, 106
Lymphoma, Burkitt's
 treatment of, 246
Lymphomas
 management of, 137-140
 non-Hodgkin's, diagnosis and treatment of,
 150
Lymphomas, malignant
 adriamycin as agent for treatment of, 327
 bleomycin as agent for treatment of, 322

M

Mastectomy, subcutaneous bilateral, 246-247
Melanoma, 225-228
Melanoma, malignant, biopsy for, 104-105
Morbid anatomy
 glands,
 cancerous mesenteric, 56
 scrofulous mesenteric, 56
 intestines,
 scirrhous and cancer of, 50-51
 liver,
 hydatids of, 54-55
 tubercle of, 51-54
 pancreas,
 scirrhous structure in, 56
 peritoneum,
 scrofulous masses adhering to, 55
 stomach,
 scirrhous and cancer of, 49-50
Mortality
 in Black population, from cancer, 42-46

in children, leading causes of death:
rate per 100,000, 1-14 years, 21
ten leading causes of death, age group and
sex, 1969, 14-15

N

National Wilms' tumor study, 75-76
Nursing, cancer
American Cancer Society's work study
program in, 191-192

O

Oncologist and cancer management (editorial),
320
Oncology, pediatric, 332-335
Oral cancer
age adjusted death rates for, 16
Ovarian cancer
management of, 339-347, 348-350
postoperative radiotherapy for, 106

P

Pancreas, cancer of
method of diagnosis for, 148
surgical resection for, 363-367
Pneumonectomy, 238-242
Peritoneum
scrofulous masses adhering to, 55-56
Prostate, cancer of, 282-288
mortality rates for, 4, 17

Q

Questions and Answers on Cancer, 31,
106-107, 147-151, 233-235, 306-307,
348-350
Quiz: Is It Cancer?, 289

R

Radiology
diagnostic, 83-86
bone scanning, 85-86
EMI scanner, 85
lymphangiography, 86
mammography, 83-84
radioisotopes, 85
thermography, 84
tomography, 84
ultrasound, 84
xeroradiography, 83-84
in differential diagnosis of
bone tumors, 194-211
Rectum and colon, cancer of
clinical signs and symptoms of, 153
diagnostic guide for, 156
digital rectal examination for, 100-103
early diagnosis of, 152-159
endoscopic examination for, 160-162
mortality rates for, 2-3, 16
Regression of cancer, 274-279
Reporting on Cancer Research, 58-59, 123-124,
188-189, 250-252, 312-314, 377

S

Salivary gland, diagnosis of tumors of, 266-273
Sarcomas
adriamycin as agent for treatment of, 326-327
bleomycin as agent for treatment of, 322
Schiller iodine test in examination for cervical
neoplasia, 23-24
Seminoma, chemotherapy for, 244
Skin, cancer of
basal cell carcinoma, 220-223
clinical characteristics of, 219
common sites of, 219
danger signals for, 227
diagnosis and management of, 218-228
incidence of, 219
melanoma, 225-228
squamous cell carcinoma, 224-225

Squamous cell carcinoma, 224-225
 treatment for, 244

Staging system, clinical, for carcinoma of lung, 87-94

Statistics

- Black population, death rate in, 42-46
- cancer around the world, 16-17
- children,
 - leading causes of death in, 1-14
 - years, per 100,000, 21
- most common sites of cancer in,
 - under 15 years, 20
- classification of salivary gland tumors, 271
- death in children, leading causes of, 1-14
- years, per 100,000, 21
- death rate in Black population, 42-46
- death rates
 - for most frequent cancers, 1950-1967, trend of nonwhite and white, 44-45
 - for prostate cancer, by age and race, U.S., 1966-1968, 282
 - for stomach cancer, 2, 17
 - male, by site, U.S., 1930-1969, 7
- deaths
 - for five leading cancer sites by age, sex and site, U.S., 1969, 8-9
 - from cancer and new cases by sex for all sites, 1974, 10-11
 - from cancer by site and sex, 9
 - from cancer for all sites and major sites, by state, 1974, 12
 - leading causes of, U.S., 1969, 20
- epidemiology of cancer, worldwide 1974, 2-21
- female cancer death rates by site, U.S., 1930-1969, 7
- five-year survival rates for major sites by stage and sex, 18
- incidence of cancer by site and sex, 8
- incidence of salivary gland tumors, 267
- local application of, 21
- new cancer cases for all sites and major sites, by state, 1974, 13
- percent of cancer cases by site, by stage at diagnosis, 19
- prostate cancer death rates by age and race, U.S., 1966-1968, 282

salivary gland tumors
 classification of, 271
 incidence of, 267

Stilbestrol and contraceptive pills, 31

Stomach, cancer of
 death rates in, 2, 17
